³ Data from the Strategy for Demographic Development of Ukraine through 2040

Speeding is the leading cause of mortality

In 2025

1 718

fatalities were caused by speeding

53%

of all fatalities in RTCs

km/h
Maximum urban speed limit

 **+20 km/h**
“margin of impunity”

A 5% reduction in average traffic speed can reduce fatal crashes by 30%⁴

At an impact speed of

50 km/h - chance of survival is **80%**

70 km/h - chance of survival is **> 20%**

Solutions

- ✓ Adopt Draft law No. 13314 which provides for:
 - reducing the non-fineable margin to +10 km/h
 - implementing graduated penalties for speeding
- ✓ Conduct awareness campaigns targeting drivers on the risks of speeding
